Where this direction applies

(2) This direction applies to all relevant planning authorities.

When this direction applies

(3) This direction applies when a relevant planning authority prepares a planning proposal that would have the effect of:

(a) prohibiting the mining of coal or other minerals, production of petroleum, or winning or obtaining of extractive materials, or

(b) restricting the potential development of resources of coal, other minerals, petroleum or extractive materials which are of State or regional significance by permitting a land use that is likely to be incompatible with such development.

What a relevant planning authority must do if this direction applies

(4) In the preparation of a planning proposal affected by this direction, the relevant planning authority must:

(a) consult the Director-General of the Department of Primary Industries (DPI) to identify any:

    (i) resources of coal, other minerals, petroleum or extractive material that are of either State or regional significance, and

    (ii) existing mines, petroleum production operations or extractive industries occurring in the area subject to the planning proposal, and

(b) seek advice from the Director-General of DPI on the development potential of resources identified under (4)(a)(i), and

(c) identify and take into consideration issues likely to lead to land use conflict between other land uses and:

    (i) development of resources identified under (4)(a)(i), or

    (ii) existing development identified under (4)(a)(ii).

(5) Where a planning proposal prohibits or restricts development of resources identified under (4)(a)(i), or proposes land uses that may create land use conflicts identified under (4)(c), the relevant planning authority must:

Direction 1.3 – issued 1 July 2009
1.4 Oyster Aquaculture

Objectives

(1) The objectives of this direction are:
   (a) to ensure that Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area are adequately considered when preparing a planning proposal,
   (b) to protect Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area from land uses that may result in adverse impacts on water quality and consequently, on the health of oysters and oyster consumers.

Where this direction applies

(2) This direction applies to Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area as identified in the *NSW Oyster Industry Sustainable Aquaculture Strategy* (2006) (“the Strategy”).

When this direction applies

(3) This direction applies when a relevant planning authority prepares any planning proposal that proposes a change in land use which could result in:
   (a) adverse impacts on a Priority Oyster Aquaculture Area or a “current oyster aquaculture lease in the national parks estate”; or
   (b) incompatible use of land between oyster aquaculture in a Priority Oyster Aquaculture Area or a “current oyster aquaculture lease in the national parks estate” and other land uses.

What a relevant planning authority must do if this direction applies

(4) In the preparation of a planning proposal affected by this direction, the relevant planning authority must:
   (a) identify any Priority Oyster Aquaculture Areas and oyster aquaculture leases outside such an area, as shown the maps to the Strategy, to which the planning proposal would apply,
   (b) identify any proposed land uses which could result in any adverse impact on a Priority Oyster Aquaculture Area or oyster aquaculture leases outside such an area,
   (c) identify and take into consideration any issues likely to lead to an incompatible use of land between oyster aquaculture and other land uses and identify and evaluate measures to avoid or minimise such land use in compatibility,
   (d) consult with the Director-General of the Department of Primary Industries (DPI) of the proposed changes in the preparation of the planning proposal, and
   (e) ensure the planning proposal is consistent with the Strategy.

(5) Where a planning proposal proposes land uses that may result in adverse impacts identified under (4)(b) and (c), relevant planning authority must:
   (a) provide the Director-General of DPI with a copy of the planning proposal and notification of the relevant provisions,
   (b) allow the Director-General of DPI a period of 40 days from the date of notification to provide in writing any objections to the terms of the planning proposal, and
   (c) include a copy of any objection and supporting information received from the Director-General of DPI with the statement to the Director-General of the Department of Planning before undertaking community consultation in satisfaction of section 57 of the Act.

Consistency

(6) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) that the provisions of the planning proposal that are inconsistent are of minor significance.

Note: In this direction:
   (a) “Priority Oyster Aquaculture Areas” has the same meaning as in the *NSW Oyster Industry Sustainable Aquaculture Strategy*; and
   (b) an “incompatible use of land” includes access to oyster leases being limited by the change in land use or the risk of adverse impacts as a result of that change in land use on water quality and, consequently, on the health of oysters and on the health of consumers of those oysters.

   i. is appropriately located taking account of the availability of human services, utility infrastructure, transport and proximity to existing centres
   ii. is necessary taking account of existing and future demand and supply of rural residential land.

Note: where a planning authority seeks to vary an existing minimum lot size within a rural or environment protection zone, it must also do so in accordance with the Rural Subdivision Principles in clause 5.16 of the relevant Local Environmental Plan.

Consistency

(6) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Secretary of the Department of Planning & Environment (or an officer of the Department nominated by the Secretary) that the provisions of the planning proposal that are inconsistent are:

(a) justified by a strategy which:

2.6 Remediation of Contaminated Land

Objective
(1) The objective of this direction is to reduce the risk of harm to human health and the environment by ensuring that contamination and remediation are considered by planning proposal authorities.

Where this direction applies
(2) This direction applies to:
   (a) land that is within an investigation area within the meaning of the Contaminated Land Management Act 1997,
   (b) land on which development for a purpose referred to in Table 1 to the contaminated land planning guidelines is being, or is known to have been, carried out,
   (c) the extent to which it is proposed to carry out development on it for residential, educational, recreational or childcare purposes, or for the purposes of a hospital — land:
      (i) in relation to which there is no knowledge (or incomplete knowledge) as to whether development for a purpose referred to in Table 1 to the contaminated land planning guidelines has been carried out, and
      (ii) on which it would have been lawful to carry out such development during any period in respect of which there is no knowledge (or incomplete knowledge).

When this direction applies
(3) This direction applies when a planning proposal authority prepares a planning proposal applying to land specified in paragraph (2).

What a planning proposal authority must do if this direction applies
(4) A planning proposal authority must not include in a particular zone (within the meaning of the local environmental plan) any land specified in paragraph (2) if the inclusion of the land in that zone would permit a change of use of the land, unless:
   (a) the planning proposal authority has considered whether the land is contaminated, and
   (b) if the land is contaminated, the planning proposal authority is satisfied that the land is suitable in its contaminated state (or will be suitable, after remediation) for all the purposes for which land in the zone concerned is permitted to be used, and
   (c) if the land requires remediation to be made suitable for any purpose for which land in that zone is permitted to be used, the planning proposal authority is satisfied that the land will be so remediated before the land is used for that purpose.

In order to satisfy itself as to paragraph (4)(c), the planning proposal authority may need to include certain provisions in the local environmental plan.

(5) Before including any land specified in paragraph (2) in a particular zone, the planning proposal authority is to obtain and have regard to a report specifying the findings of a preliminary investigation of the land carried out in accordance with the contaminated land planning guidelines.

Note: In this direction, contaminated land planning guidelines means guidelines under clause 3 of Schedule 6 to the Environmental Planning and Assessment Act 1979.

Objective
(1) The objectives of this direction are to:
   (a) mitigate significant impacts of short-term rental accommodation where non-hosted short-
   term rental accommodation period are to be reduced, and
   (b) ensure the impacts of short-term rental accommodation and views of the community
   are considered.

Where this direction applies
(2) This direction applies to Byron Shire Council.

number of days that non-hosted short-term rental accommodation may be carried out in parts of its
local government area.

What a planning proposal authority must do if this direction applies
(4) The council must include provisions which give effect to the following principles in a
planning proposal to which this direction applies:
o non-hosted short term rental accommodation periods must not be reduced to be less
than 90 days
o the reasons for changing the non-hosted short-term rental accommodation period should
be clearly articulated
o there should be a sound evidence base for the proposed change, including evidence of the
availability of short-term rental accommodation in the area (or parts of the area) in the 12
months preceding the proposal, relative to the amount of housing in the area, and trend
data on the availability of short-term rental accommodation over the past 5 years.
o the impact of reducing the non-hosted short-term rental accommodation period should be
analysed and explained, including social and economic impacts for the community in
general, and impacted property owners specifically.

Consistency
(5) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning
authority can satisfy the Director-General of the Department of Planning (or an officer of the
Department nominated by the Director-General) that the provisions of the planning proposal that

accommodation arrangement (within the meaning of section 54A of the *Fair Trading Act 1987*) if the lot is not the principal place of residence of the person who, pursuant to the arrangement, is giving another person the right to occupy the lot.

*tenant* has the same meaning as in the *Residential Tenancies Act 2010*.

*non-hosted short-term rental accommodation* means short-term rental accommodation provided where the host does not reside on the premises during the provision of the accommodation.

(a) the Acid Sulfate Soils Model LEP in the Acid Sulfate Soils Planning Guidelines adopted by the Director-General, or

(b) such other provisions provided by the Director-General of the Department of Planning that are consistent with the Acid Sulfate Soils Planning Guidelines.

(6) A relevant planning authority must not prepare a planning proposal that proposes an intensification of land uses on land identified as having a probability of containing acid sulfate soils on the Acid Sulfate Soils Planning Maps unless the relevant planning authority has considered an acid sulfate soils study assessing the appropriateness of the change of land use given the presence of acid sulfate soils. The relevant planning authority must provide a copy of any such study to the Director-General prior to undertaking community consultation in satisfaction of section 57 of the Act.

(7) Where provisions referred to under paragraph (5) of this direction have not been introduced and the relevant planning authority is preparing a planning proposal that proposes an intensification of land uses on land identified as having a probability of acid sulfate soils on the Acid Sulfate Soils Planning Maps, the planning proposal must contain provisions consistent with paragraph (5).

**Consistency**

(8) A planning proposal may be inconsistent with the terms of this direction only if the relevant planning authority can satisfy the Director-General of the Department of Planning (or an officer of the Department nominated by the Director-General) that the provisions of the planning proposal that are inconsistent are:

   (c) in accordance with the relevant Regional Strategy, Regional Plan or Sub-Regional Strategy prepared by the Department of Planning which gives consideration to the objective of this direction, or
   (d) of minor significance.

Note: With regard to development applications, section 15 of the Mine Subsidence Compensation Act 1961 requires approval from the Mine Subsidence Board to alter or erect improvements within a mine subsidence district or to subdivide land therein.
Section 91 of the Environmental Planning and Assessment Act 1979 (the EP&A Act) provides that approval under section 15 of the Mine Subsidence Compensation Act 1961 is integrated development. Section 91A of
the EP&A Act provides that the consent authority must obtain from the relevant approval body (Mine Subsidence Board) the general terms of any approval proposed to be granted by the approval body in relation to the development. A consent granted by the consent authority must be consistent with the general terms of any approval proposed to be granted by the approval body.

Objectives

(1) The objectives for managing commercial and retail development along the Pacific Highway are:

(a) to protect the Pacific Highway’s function, that is to operate as the North Coast’s primary inter- and intra-regional road traffic route;
(b) to prevent inappropriate development fronting the highway;
(c) to protect public expenditure invested in the Pacific Highway;
(d) to protect and improve highway safety and highway efficiency;

What a relevant planning authority must do if this Direction applies

(4) A planning proposal that applies to land located on “within town” segments of the Pacific Highway must provide that:

(a) new commercial or retail development must be concentrated within distinct centres rather than spread along the highway;
(b) development with frontage to the Pacific Highway must consider impact the development has on the safety and efficiency of the highway; and
(c) for the purposes of this paragraph, “within town” means areas which, prior to the draft local environmental plan, have an urban zone (eg: “village”, “residential”, “tourist”, “commercial”, “industrial”, etc) and where the Pacific Highway speed limit is less than 80km/hour.

(5) A planning proposal that applies to land located on “out-of-town” segments of the Pacific Highway must provide that:

(a) new commercial or retail development must not be established near the Pacific Highway if this proximity would be inconsistent with the objectives of this Direction;
(b) development with frontage to the Pacific Highway must consider the impact the development has on the safety and efficiency of the highway; and
(c) for the purposes of this paragraph, “out-of-town” means areas which, prior to the draft local environmental plan, do not have an urban zone (eg: “village”, “residential”, “tourist”, “commercial”, “industrial”, etc) or are in areas where the Pacific Highway speed limit is 80km/hour or greater.

(6) Notwithstanding the requirements of paragraphs (4) and (5), the establishment of highway service centres may be permitted at the localities listed in Table 1, provided that Roads and Maritime Services is satisfied that the highway service centre(s) can be safely and efficiently integrated into the Highway interchange(s) at those localities. For the purposes of this paragraph, a highway service centre has the same meaning as is contained in the Standard Instrument (Local Environmental Plans) Order 2006.
