2019 Population Projections for Forbes help us understand the future size of the population and composition of households in the Shire.

The 2019 Population Projections indicate that the population of Forbes is estimated to remain stable, changing by 500 people between 2016 and 2041, from 9,800 to 10,300. Forbes’ population is estimated to remain relatively stable.

The working age population (aged 15-64) is estimated to remain stable, moving from 5,700 in 2016 to 5,700 in 2041 – a change of 0.

The number of children aged 14 and under is estimated to change by 150 children, from 2,050 in 2016 to 1,900 in 2041.

The number of people aged 65 and over is estimated to increase from 2,050 in 2016 to 2,750 by 2041 - a change of 700.

Supporting communities in Forbes

The NSW, Federal and local governments are delivering infrastructure and capital works that may change future population patterns and growth beyond what is shown in the projections. For example:

- The $1.02m Lake Forbes community facility will add a major public facility to the town.
- The Daroobalgie Solar Farm proposal has the potential to generate energy and jobs.
- Enhancing mobile connectivity, such as $359k for the Waroo mobile phone tower.
- $573k for the revitalisation of Forbes’ Main Street to enhance the CBD’s main thoroughfare.

What are the NSW Population Projections?

The NSW Population Projections estimate the future NSW population based on assumptions for fertility, life expectancy and migration. They represent possible demographic futures based on the best assessment of how the NSW population may change over time, including population size, age profile and residential location. These projections are based on assumptions known at the time of publication. These projections are a tool used by the Government in the planning of services and infrastructure such as schools, hospitals, transport and community services.

Future decisions, such as infrastructure investments and land use plans, will change future population patterns including growth and distribution. These projections do not change the vision set out in Regional Plans or affect local plans and strategies such as the Local Strategic Planning Statements and Local Housing Strategies.
