2019 Population Projections for Greater Hume Shire help us understand the future size of the population and composition of households in the Shire.

The 2019 Population Projections indicate that the population of Greater Hume Shire is estimated to increase by 750 people between 2016 and 2041, from 10,500 to 11,250. The Greater Hume Shire’s population is estimated to remain relatively stable.

The working age population (aged 15-64) is estimated to remain stable, moving from 6,200 in 2016 to 6,200 in 2041 – a change of 0.

The number of children aged 14 and under is estimated to change by 250 children, from 2,350 in 2016 to 2,100 in 2041.

The number of people aged 65 and over is estimated to increase from 2,000 in 2016 to 2,950 by 2041 - a change of 950.

Supporting communities in Greater Hume Shire

The NSW, Federal and local governments are delivering infrastructure and capital works that may change future population patterns and growth beyond what is shown in the projections. For example:

- The $3.1m Henty Highway intersection and rail crossing project
- $450k for the new mobile phone tower at Burrumbuttock to boost connectivity in the region
- The $427k upgrade to the Greater Hume Shire council halls to improve these community facilities
- On Demand bus trials in Albury, Burrumbuttock, Walla Walla, Jindera and Holbrook

What are the NSW Population Projections?

The NSW Population Projections estimate the future NSW population based on assumptions for fertility, life expectancy and migration. They represent possible demographic futures based on the best assessment of how the NSW population may change over time, including population size, age profile and residential location. These projections are based on assumptions known at the time of publication. These projections are a tool used by the Government in the planning of services and infrastructure such as schools, hospitals, transport and community services.

Future decisions, such as infrastructure investments and land use plans, will change future population patterns including growth and distribution. These projections do not change the vision set out in Regional Plans or affect local plans and strategies such as the Local Strategic Planning Statements and Local Housing Strategies.
