Note: Although the map highlights the major roads, railways and watercourses, and indicates the location of land outside the Northern Rivers Catchment Management Area, reservoirs and their catchments, Goddess Dam and Tünstl Plates and their catchments, significant farmland and significant farmland with non-contiguous characteristics, and state significant farmland, it does not show the precise location of these features due to varying data sources. Topographic data (road/rail centrelines and watercourses) show slight differences with cadastral information due to varying data sources. The map was produced for use at a scale of 1:100,000 or smaller and should not be used at, or scaled to, a larger scale (eg. 1:50,000).
