

Response given on ownership issues related to Tralee LEP

The Department is preparing a report for the Minister for Planning and Infrastructure's consideration of the draft Queanbeyan local environmental plan (South Tralee) 2011, and can not speculate on the timing of any decision by the Minister.

The LEP has been prepared by Queanbeyan City Council to determine the appropriate future zoning of the land.

The Department is currently not aware of the detailed legal implications of the ownership issues and therefore cannot comment further on this aspect.
