**Berrys Bay Marina**  
**Response given to *The Daily Telegraph***

**What is the status of the Berrys Bay Marina development proposal? Is it with the Department of Planning and Infrastructure for consideration?**

Department of Planning and Infrastructure response:

The Department of Planning and Infrastructure did not receive an application for a development proposal at Berrys Bay, prior to the announcement of the repeal of Part 3A.

As such, there is nothing before the Department to assess.

It's hard for the Department of Planning and Infrastructure to comment definitively on the likely future assessment process of the Berrys Bay Marina considering that an application is not before us and we do not have specific details.

However, under the State Government's new State significant assessment system, it has been agreed that generally marinas will not be assessed by the Department of Planning and Infrastructure.

It is recommend to speak to NSW Maritime about this project.
