Letter to the Editor of the *Macarthur Chronicle*

Your article on the proposed relocation of an exhaust shaft associated with the Tahmoor Colliery to a location on Innes St, Thirlmere does not provide readers with two important pieces of information ('Council plans to demand consultation', *Macarthur Chronicle*, 19/6/12).

To date, the department has not yet received any such application – a point that the article does not make clear.

Secondly, and most importantly, the department has already made a commitment (including to local action group Shafted) that, should an application be received, it will indeed be placed on exhibition and public comment invited.

Yours sincerely,

CHRIS WILSON
Executive Director, Major Projects Assessment
NSW Department of Planning and Infrastructure
