Statement about ongoing development at Bingara Gorge

There is no NSW Government proposal or decision to suspend land sales at Lend Lease’s Bingara Gorge development in the Wollondilly shire.

Bingara Gorge was initially zoned for residential development in 2005. Work at the site began in 2006 and Lend Lease informs the department that around 160 homes are currently occupied.

The Government has no power to overturn historic development approvals.

Bingara Gorge is part of the broader Wilton Junction study area.
