Have your say on Capital Wind Farm 2

An application to modify the Project Approval for Capital Wind Farm 2 south-west of Tarago is now on exhibition for community feedback.

The Department of Planning and Environment is seeking views on the modification application, which seeks to increase wind turbine blade diameter from the approved 114 metres to a proposed 126 metres. It does not propose to change the overall height of the turbines.

A spokesperson for the Department of Planning and Environment said input from the local community will be considered as part of assessing the project.

“The application outlines the proposed change and includes information on noise, biodiversity and traffic impacts,” the spokesperson said.

“The proponent will be required to respond to all issues raised in submissions so I encourage everyone to take a look and have their say.”

To make a submission or view the modification application and supporting information visit www.majorprojects.planning.nsw.gov.au/page/on-exhibition. Submissions can be made until Thursday 30 October.

Written submissions can also be made to:
Attn: Attention: Manager – Energy
GPO Box 39
Sydney NSW 2001

The EIS is also available to view in person at:
- Department of Planning and Environment, 23-33 Bridge Street, Sydney
- Nature Conservation Council of NSW, Level 2, 5 Wilson Street, Newtown
- Palerang Council, Braidwood Office, 144 Wallace Street, Braidwood
- Palerang Council, Bungendore Office, 10 Majara Street, Bungendore
