Have your say on the Hornsby Quarry Road Construction Spoil Management Project

A proposal to manage construction spoil generated by the NorthConnex project at the Hornsby Quarry will be on exhibition from today for community feedback.

The Department of Planning and Environment is keen to hear the community’s views on the application which seeks to:

- place earth from the NorthConnex project at the Hornsby Quarry over a period of approximately 28 months
- associated preparatory works, including
  - establishing site access
  - stockpile area
  - conveyer system
  - noise controls
- site clean-up and demobilisation.

The placement of fill in the quarry will allow Hornsby Shire Council to continue with planning to re-develop the site as a recreation area.

A spokesperson for the Department of Planning and Environment said the local community always has an opportunity to share their views.

“Community consultation is an integral part of the planning process and the proponent will have to respond to the feedback we receive and this is taken into consideration when we develop our recommendations,” the spokesperson said.

“It’s easy to participate by going online and we encourage everyone to take a look and have their say.”

To make a submission or view the environmental impact statement, visit www.majorprojects.planning.nsw.gov.au. Submissions can be made from Wednesday 5 August 2015 until Friday 4 September 2015.

Written submissions can also be made to:
