Reminder to have your say on what makes Campbelltown great

Local communities are encouraged to get involved in shaping the future of the local area by filling in a quick on-line survey.

The Department of Planning and Environment and Campbelltown City Council are investigating opportunities to revitalise communities around the seven train stations between Glenfield and Macarthur.

The local community is being asked to contribute by spending a couple of minutes completing an online survey.

The Department and Council want to know what locals like about their area - such as parks, transport and community infrastructure - and what could be improved.

Residents can either use a smart device or computer, or use facilities at Campbelltown City Library or the Greg Percival Library.

To undertake the survey go to www.planning.nsw.gov.au/glenfieldtomacarthur

The Department of Planning is continuing the online survey to give all the community a chance to be heard.

There will be further opportunities for the community to get involved once the detailed studies are completed and draft plans are released for public comment.
