**Have your say on a Light Weight Aggregate Facility in Horsley Park**

A proposal to construct a facility that manufactures light weight gravel material for use in concrete blocks and pavers on Wallgrove Road, Horsley Park will be on exhibition from today for community feedback.

The Department of Planning and Environment is keen to hear the community’s views on the application which seeks to construct a facility capable of manufacturing up to 600,000 tonnes of light weight gravel material per year.

Associated infrastructure includes:

- two rotary kilns
- multi-fuel burner
- crushing and screening plant
- storage and stockpiling areas
- internal roadways
- offices and amenities.

A spokesperson for the Department of Planning and Environment said the local community always has an opportunity to share their views.

“Community consultation is an integral part of the planning process and the applicant will have to respond to the feedback we receive and this is taken into consideration when we develop our recommendations,” the spokesperson said.

“It’s easy to participate by going online and we encourage everyone to take a look and have their say.”

To make a submission or view the Environmental Impact Statement (EIS), visit [www.majorprojects.planning.nsw.gov.au](http://www.majorprojects.planning.nsw.gov.au).

Submissions can be made from Thursday, 5 November until Monday 7 December, 2015.

Written submissions can also be made to:

Department of Planning and Environment  
Attn: Planning Services  
GPO Box 39  
Sydney NSW 2001
The application and EIS is also available to view in person at:

- Department of Planning and Environment, 23-33 Bridge Street, Sydney
- Fairfield City Council Administration Centre, 86 Avoca Road, Wakeley
- Wetherill Park Library, Stockland Town Centre, 561-583 Polding Street, Prariewood
