Have your say on modifications to the Greater Ravensworth Area Tailings Pipeline

Proposed modifications to the development consents for the Liddell Colliery, Ravensworth Complex and Ravensworth East Coal Mine in the Singleton and Muswellbrook areas is on exhibition for community feedback.

The Department of Planning and Environment is keen to hear the community’s views on the applications which seek to:

- construct approximately 11 kilometres of pipeline to transport coal processing waste (tailings) that will connect from the Ravensworth Complex and Liddell Colliery for disposal at Ravensworth East
- construct a plant to treat this coal processing waste prior to disposal
- temporarily use the Narama Void at the Ravensworth Complex as a central water storage area for Glencore’s operations in the Greater Ravensworth Area.

A spokesperson for the Department of Planning and Environment said the local community always has an opportunity to share their views.

“Community consultation is an integral part of the planning process and the applicant will have to respond to the feedback we receive and this is taken into consideration when we develop our recommendations,” the spokesperson said.

“It’s easy to participate by going online and we encourage everyone to take a look and have their say.”

To make a submission or view the Environmental Assessment (EA), visit [www.majorprojects.planning.nsw.gov.au](http://www.majorprojects.planning.nsw.gov.au).

Submissions can be made from Tuesday 24 November until Tuesday 8 December, 2015.

Written submissions can also be made to:

Department of Planning and Environment
Attn: Planning Services
GPO Box 39
Sydney NSW 2001
