**Have your say on modifications to the Fullerton Cove Sand Quarry**

A proposal to make modifications to the Fullerton Cove Sand Quarry will be on exhibition from today for community feedback.

The Department of Planning and Environment is keen to hear the community’s views on the application which seeks to extend the approved duration of mining at the quarry by four years, until 30 June 2020.

No other changes are proposed.

A spokesperson for the Department of Planning and Environment said the local community always has an opportunity to share their views.

“Community consultation is an integral part of the planning process and the applicant will have to respond to the feedback we receive and this is taken into consideration when we develop our recommendations,” the spokesperson said.

“It’s easy to participate by going online and we encourage everyone to take a look and have their say.”
