Have your say on an Ethanol Plant in Deniliquin

A proposal to construct an ethanol production plant in Deniliquin will be on exhibition from today for community feedback.

The Department of Planning and Environment is keen to hear the community’s views on the application which seeks to build an ethanol production plant with a capacity to produce 115 megalitres of ethanol per year, including:

- grain storage silos
- on-site ethanol storage
- wastewater treatment facility
- workshop area
- training and development centre
- car parking
- internal road network
- associated stormwater infrastructure.

A spokesperson for the Department of Planning and Environment said the local community always has an opportunity to share their views.

“Community consultation is an integral part of the planning process and the applicant will have to respond to the feedback we receive and this is taken into consideration when we develop our recommendations,” the spokesperson said.

“It’s easy to participate by going online and we encourage everyone to take a look and have their say.”

To make a submission or view the environmental impact statement, visit www.majorprojects.planning.nsw.gov.au.

Submissions can be made from Tuesday, 13 October until Thursday, 12 November 2015.

Written submissions can also be made to:

Department of Planning and Environment
Attn: Director – Industry Assessments
GPO Box 39
Sydney NSW 2001
