

# Using the technical appendices

## Fact sheet

31 July 2026

The draft Illawarra Shoalhaven Plan sets the strategic land use framework for the Illawarra Shoalhaven region for the next 20 years. The technical appendices accompany the Plan. They provide:

- Additional information to support different sections of the plan
- Principles and guidance for councils and others to support local strategic planning and the preparation and assessment of planning proposals
- Detailed maps, data and evidence to support the plan’s implementation.

The technical appendices may be updated alongside the introduction of new policies, major announcements, legislative changes or data releases. They will be regularly reviewed with the plan, as required under the *Environmental Planning & Assessment Act 1979*.

Table 1: List of technical appendices

| Appendix | Title                       | Version | Release date |
|----------|-----------------------------|---------|--------------|
| A.       | Local government narratives | Draft   | 31 July 2026 |
| B.       | Urban growth area policy    | Draft   | 31 July 2026 |
| C.       | Glossary                    | Draft   | 31 July 2026 |
